Technological leader who empathetically drives culture and systematically delivers value. Skilled in managing remote & hybrid multidisciplinary teams and guiding organizations to more efficiently develop software products. Lifelong mentor, teacher, and coach committed to people development and raising others up holistically. Personally invested in a continuous learning mindset focusing on both breadth and depth across business, leadership, and technology.

Effective communicator, project manager, and product owner experienced in workflow process improvement, organizational change management, and workforce planning who is able to architect and implement transformative technologies and solutions. Agile evangelist incorporating the best of Scrum, Kanban, Lean, SAFe, Six Sigma, and other frameworks to meet deliverables. Doggedly focused on outcomes rather than outputs in order to deliver iterative, future-proof solutions which satisfy stakeholders across the organization.

Experience (Selected)

2023–Present	<p>Manager, Software Engineering, Full Stack <i>Capital One. McLean, VA</i></p> <p>Managed Retail Bank technology groups focused on improving Capital One's account opening experience and customer engagement.
