www.michaelbrittlebank.com

Technology leader who empathetically drives culture and systematically delivers value. Skilled in managing remote & hybrid multidisciplinary teams and guiding organizations to more efficiently develop software products. Lifelong mentor, teacher, and coach committed to team health and people development by raising others up holistically. Expert generalist skilled in implementing strategy and personally invested in a continuous learning mindset focusing on business acumen, technology, leadership, and innovation.

Effective communicator, project manager, and product owner experienced in workflow process improvement, organizational change management, and workforce planning who is able to influence, promote, and implement transformative technologies and processes. Agile evangelist incorporating the best of Scrum, Kanban, Lean, SAFe, Six Sigma, and other frameworks to meet deliverables. Doggedly focused on outcomes rather than outputs in order to deliver iterative, future-proof solutions which satisfy stakeholders across the organization.

## Experience (Selected)

2023–Present

### Senior Manager, Software Engineering

*Capital One. McLean, VA*

Managed retail bank technology teams focused on innovative open banking technologies and improving Capital One's customer engagement with our retail bank products. Created greenfield full-stack, cross-disciplinary solutions and strategy to enable data-driven, real-time insights and capabilities which power top-tier Bank priorities.

#### Key Achievements

- Won the President of Banking and Premium Products's TEAM award
- Won the Enterprise TechX award which is the singular recognition program that puts a spotlight on Technology teams making an impact across Tech at Capital One
- Named inventor on two of five patents arising from project innovation
- Recognised as a Tech 2025 Selection Champion representing 1% of the total Tech interviewer population and embodying the highest ideals and values
- Trained managers across the Enterprise on associate development plans, actionable feedback, and performance management

**Technologies:** Android, Angular, Apache Airflow & Kafka, AWS, Docker, ECS, iOS, Java, Jenkins, Kafka, Kotlin, Lambda, Python, Snowflake, SNS, Spring Boot, SQS, Swift, Terraform

2020–2023

### Technology Solution Delivery Manager

*American Family Ins. Madison, WI*

Software engineering manager leading multi-discipline, hybrid team of technical professionals to deliver a multimillion dollar, greenfield P&C insurance white-labeled consumer servicing platform as part of the ongoing organizational digital transformation. This UI was the first consumer of Enterprise APIs as well as the first platform to have a shared product vision across operating companies thereby enabling the decommissioning of legacy platforms and further cost reduction

#### Key Achievements

- Developed KPIs to benchmark multiple teams' performance across the Agile train
- Spearheaded a divisional cross-training program focused on technical up-skilling of employees
- Facilitated innovative approaches to UX solutions including a new design system in Figma

**Technologies:** AWS, Google Cloud Platform (GCP), Guidewire (PolicyCenter), Material-UI (MUI), Nest.JS, Node.js, Nx, React, Python, Sitecore, TypeScript
